enounces La Pollette's Effort to Win Over Fol-lowers of Roosevelt

Efforts of La Follette supporters to convey an impres-sion that Theodore Roose-velt approved of the political views and policies of the radical Wisconsin Senator would favor La Follette's election to the Presidency, are denounced in truly Rooseveltian style in a telegram received here yesterday by Albert Searl from the late

President's sister, Mrs. Cor-rine Roosevelt Robinson.

Affirming her conviction that her brother, if living, would be fighting for Cool-idge and Daws, Mrs. Robinson referred to the fact that Rocsevelt frequently excoriated La Follette as a menace to this country.

Her wire, which came in quiry sent to her by Searl, a former Los Angeles newspaper man and supporter of Roosevelt, follows:

Roosevelt, denounced La Follette in 1915, in 1917 and in 1918 as the most dangerous and sinister influence in America. Any Roosevelt Progressive who gets behind Robert La Follette is a traitor to Theodore Roceveit. I am convinced were my brother alive he would be fighting for Coolidge and Dawes, as I am. John Spargo Calls Candidate Reactionary Who Would Undo Nation's Accomplishments

WASHINGTON, Sept. 22.—John Sparge, formerly prominent in the Socialist party, which he left in 1917, gave out an interview today in which he stigmatised Senator Robert M. La Follette as the "extreme Between Nations

mentionary candidate in the campaign."

Mr. Spargo gave his views on politics, candidates and issues at the White House following a conference he had with President Coolidge, who, he said, will receive the support of the great majority of the American people because they realize that to change present constructive policies for new economic and political experiments might spell disaster at home and abroad.

Senator La Follette, Mr. Spargo, "He is the extreme reactionary in this campaign. For any liberal-minded man whether he calls himself a political experiments might spell disaster at home and abroad.

Senator La Follette, Mr. Spargo, "He is the extreme reactionary in this campaign. For any liberal-minded man whether he calls himself a socialist, a radical or a liberal, to estimate the conclusion of the World War to revive the support La Follette would be to abdicate reason. There is nothing in his domestic or his foreign policy that could conceivably appeal to one who wants to achieve the democratic ideal of industry. "His attitude on international problems has been one of consistent refusal to co-operate; his a policy of isolation. In his domestic creed, he said, La Follette when co-operation is proving itself is not so much reactionary as he is antiquated. Except as regards

BRITAIN IS READY

In the course of a striking address Arthur Henderson, the Britsish secretary, emphasized Great Britain's readiness to come forward with the sanctions provided by the covenant.

Mr. Henderson reiterated Great Britain's determination to make reservations in subscribing to the arbitrations clause of the World Court, saying it was not reasonable to expect that England could be taken before the World Court for warlike acts carried out by her fleet at the request of the League of Nations against an aggressor state.

This pronouncement by the British Home Secretary is an allusion to the possibility of Great Britain's coming into conflict with a nonmember of the League in case a nonmember of the League for England, but declared that everything would be done to induce the British government and the British Barliament to ratify it., He emphasized that today's draft is not definite. Indeed, some of its arbitration clauses were somewhat modified tonight by the arbitration committee of the Assembly and the prevailing opinion at Geneva is that judgment on the protocol must be suspended until it has actually been adopted by the League Assembly. The landing of the world-girdling airmen of the United States Army at Mere Point here, their first stop on American shores after their 22.00-mile tour, is to be commemorated by the placing of a suitable marker in the little Maine harmlet.

Introduction of a bill in Congress calling for such a provision by the government will be one of the first official acts to be performed by Senator Frederick Hale of Maine upon the convening of the next session.

To Maine came the distinction of being the first of the States in the Union to welcome the return of the heroes of the States in the Union to welcome the return of the heroes of the air, and to the little settlement of Mere Point which noses into the lower section of Casco Bay, belongs the right to preserve for all time, suitable memento of that notable event.

The plan calls for a monument on the shore of Maquoit Bay, and upon the identical spot where the landing took place.

ter MacDonald's repeated public invitation to Germany that the British note was dispatched early so the British envoy could clear the ground tonight. The German note asked London to give the attitude of Great Britain's allies toward Germany's entry and equality in the League, as well as a seat in the League Council. It is understood that the British note informed the Ambassador only on the British position, leaving the Ambassador free to give his views orally on what France and the other Allies think.

So far Germany is quite satisfied with Fremier Herriot's attitude, but this has been found insufficient owing to the strength of the Poincare opposition to Germany's entry on equal terms. Germany's entry on equal terms. Germany is unwilling either to arm Premier Herriot's enemies with political munitions nor to enter the League unless it can sit equally with Great Britain and France.

Concerning the visit of Fridtjof Nansen, the Norwegian delegate to the League, to Chancellor Marx, Berlin politicians believe Dr. Nansen, speaking for the former enemy members. could promise Germany an earlier evacuation of the Ruhr and other blessings once the application for membership is made.

Fight TOOTH DECAY Every Day-

Tooth decay is usually caused by the food particles which lodge on and between the teeth incubating certain acid producing bacteria. The acid thrown off corrodes the hard tooth enamel and makes a tiny abrasion which grows bigger and deeper as the bacteria colony increases; thus a cavity is formed. If you can keep these bacteria from forming you can probably prevent tooth decay.

winnire Country Club, annexed the title of California B.P.O.E. golf champion during the recent convention of the antiered herd at Avalon, defeating the medalist, H.G. Ayera, of Stockton in the final round, I up at the nineteenth hole. Ewing thus brought the Donion perpetual trophy to the Los Angeles Lodge, No. 89, of the benevolent order for the year 1924, also acquiring a handsome cup for his personal possession.

Scores throughout the tournament were exceptionally low, due, it must be admitted, to the peculiarities of the Catalina course, which is devoid of turf, has sand greens and only nine holes. However, the winners in the various nights deserve no little credit, as the change from the green fairways of the average country club to the bald island links put a premium on the game which could be adanted to new circumstances. Playing the Avalon course is just one pitch and run after another, and the gelfer who can control his ball on the hardpan can usually score well elsewhere.

Ewing was the only Los Angeles Elk to absorb any of the glory in the golfing end of the convention. Medal bonors went to Ayers with a card of 70. A. L. Laurence of San Pedro had low net score in the qualifying round, and the San Pedro Lodge, No. 966, won the team championship, winning the handsome trophy the Long Beach chapter, which held the convention, put up for competition. Iks Wentworth, State golf chairman of the Elks, was the recipient of congratulations on the efficient manner in which he managed the tournament, in which 135 men competed. He was assisted by the Long Beach committee, including Harry Pressler, Roy Myers and George Bicson, but took the brunt of the responsibility on his own capable shoulders.

CARRY CLUB THROUGH Don't let go of the follow through. If the ball has been correctly hit, you feel as if

the clubhead had gone through it. For the first foot, or better still, for the first two feet of the follow through, the clubhead must be at right angles to the imaginary direction line. Visualize it. It is well to clongate this paralleling of the imaginary direction with the continuing clubhead, for the usual mistake is not to carry the clubhead along enough. Always you abould feel the clubhead working on the imaginary direction line.

For the first third of the way up with the brassle the right hand is under, but not turned over. The hands should not be brought up too abruptly for the first quarter of the follow through for they should be gathering the shot and going along with it.

When the hands have gone out about three feet or more in front, they should be called in with the arms crooked to the body. Throw the clubhead up with the wrists and bring it over the left shoulder. The left knee should be braced back on the follow through. This will prevent a long flight of the ball and let the clubhead does not go through the ball well unless you brace the left knee back. Try to make a good finish even if there is a bad start. Bear in mind the keep-going shot. The follow through after the first three feet is a sort of doubled up affair and the hands should be high up at the finish. Follow through is just a little higher. The height of the follow through more with the hands than the body, and this is especially necessary in a wind. The height of the follow through is pust a little higher. The sign should not be a sixteefith of an inch too short. The angle formed by the left shoulder and head should be braced hy a full bent follow through. The right side should be rearrily facing the hole at the finish, and you should be write now through more with the hands and clubhead. They should be relaxed in front.

The patient golfer is the one who is rewarded. The hands and clubhead are not getting a norwall and a cup of the motion. The should be relaxed in front. The patient golfer is the one with the correct path over wh

[EXCLOSIVE DIFFATCH]

POMONA COLLEGE, Sept. 22.—
With the opening of the second week of football practice on the Sagehen campus the largest number of men in the history of the college have donned moleskins and are out for either the varsity or freshman teams. Exactly ninety-two men are in suits with forty-six out for the varsity and the same number working under the tutelage of Billy Ament, frosh mentor.

This turnout is remarkable in the football history of Pomona, as the ninety-two men is over 35 percent of the total men's enrollment. This is believed to be a record turnout for any college in the Southland.

\$200,000 Worth Of Blue Print

ODAY'S Balboa supercharge motor car is the fruition of a carefully conceived plan not easily equaled for thoroughness and completeness.

After four years road-proving, Balboa engineers drew up blue prints for every part and every operation on the finished Balboa car down to fastening on the tail-light many months hence. The en-gineering plans alone could scarcely be duplicated for \$200,000.

Balboa has benefitted from the knowledge gained in the whole motor world in the twenty-odd years since motor cars became a reality. Balboa was able to adopt, and build around its supercharge motor, all that had been proved and accepted after years of experience. By the same token Balboa was able to avoid those features which had proved unworthy.

If you love fine things, you will love this car.

Ice Movement Said to Show New Geologic Era

wiscasset (Me.) Sept. 22.—
Enormous coal deposits were discovered in Ellesmere Land by Capt. Donald B. MacMillan, Arctic explorer, who arrived here Saturday after a fifteen-month sojourn in the Far North. The coal was found near Eureka Sound in seams at some places twenty-five feet thick. Samples of the coal, which he said was bituminous, were brought back by the explorer for analysis.

The doposits, however, probably cannot be brought in soon to augment the world's supply, for they see only a few hundred miles from the North Pole, and \$00 miles beyond reach of any transportation except sledges.

New GEOLOGIC ERA

Capt. MacMillan asserted that ice caps in the Arctic are increasing in thickness, glaciers are moving southward and that a new geologic period may have set in. Speaking of the discovery of coal, Dr. MacMillan said:

This simply proves the scientists' assertion that this land had at one time a temperate climate. The big hills were at one time covered with vegetation and the climate was like that of Pennsylvania. Greenway Suggested Instead for Vice-Presidency

BISBEE (Ariz.) Sept. 22.—The naming of Gen. John C. Greenway of this district to be the personal stative in Arizona of John W. Davis, Democratic Presidential nominee, is considered especially

w. Davis, Democratic Pressontian nomines, is considered especially significant in view of the fact that Greenway is not of the Hunt faction of his party? wherein there is the assumption a heavy vote will be cast for La Follette. Though the local resident was suggested for Governor before the primary, a nomination he refused, he was made something of a national character in the Democratic convention in New York. Thereon hangs a tale that has just been told. Greenway wanted to be a delegate to the national convention, but was only an alternate, nosed out in the Phoenix State convention by Mrs. Rossa McKay of Miami, who was a vote or two shead. Mrs. McKay for years has been a notable character in Arisona politics. For three sessions she was in the State Legislature, at first from folia county. Throughout her Legislative career she was a a strong advocate of labor-union interests and a supporter of Gov. Hunt. It was she who put through two bilis establishing a minimum wage for women.

Supervisor of this as many votes as her male opponent.

The Arisona delegation to New York was about evenly divided between McAdoo and the field, with the Huntites all for the Californian. There was an understanding before departure that Hunt was to be honored by being presented as a candidate for the Vice-Presidency. It is told that Mrs. McKay was chosen to make the speech of the occasion. It also is told that many votes for Hunt were assured from the more radical membership of the national convention from those who appreciated the strong support that Hunt had given McAdoo. But some one greased the rails.

HUNT CHECKMATED

On the roll call of States for Vice-Presidential nominations Alabama surrendered place, not to Arisona, but to W. L. Barnum, member of the national committee from Arisona, a man whose affection for Hunt is not v. ciferously expressed. Barnum had a tenminute speech, which he delivered to the end, though with many interruptions, finally, on behalf of Arizona, naming John C. Greenway as a soldier of two wars, a statesman and builder worthy of filling the shoes of Tom Marshall. There was consternation on the McAdoo side of the Arizona delegation. Arizona hardly could present two candidates for the Vice-

Greenway received forty votes for the Vice-Ruidency, considered a very good showing. But two half-vptes from the Arizona delegation were against him to the end. They are said to have been those of Mrs. Roes McKay and Fred T. Colter. The last named, a State Senator from Apache county, is a devoted adherent of Gov. M'ADOO TO CALL ON DAVIS TODAY

Defeated Candidate Returns from European Trip

Refuses to Discuss Politics on Plea of Ignorance

Declares Faith in League of Nations is Stronger

[BY A. P. MIGHT WIRE] NEW YORK, Sept. 23.—John W. Davis, the Democratic Presidential nominee, and William G. McAdoo, former Treasury Secre-tary, who made a determined fight for the Presidential nomination have an engagement for a conference tomorrow at Mr. Davis's per conal headquarters here.

The engagement was made after the arrival here of Mr. McAdoo from Europe late in the day, Be-forehand, Mr. McAdoo sent over the Davis headquarters from hotel to obtain copies of all the nominee's speeches, including his address of acceptance.

Mr. McAdeo has been in Europe for two months and he desired to familiarize himself with what Mr. Davis has said on the issues of the day before he himself, starts out to speak on behalf of the candidate during his trip across the continent en route to his home in California.

SILENT ON POLITICS Mr. McAdoo declined to comment on politics at this time, although he asserted he would "have something to say later."

"I have been out of touch with the political situation for more than two months," Mr. McAdoo said, "and am therefore unable to discuss it intelligently at the moment."

Mr. McAdoo, his wife and daughter, Bally, were transferred from the Leviathan at Quarantine to the yacht Selmo, owned by William H. Todd. and were landed at the New York Yacht Club pier, North River. Mr. McAdoo went directly to the Hotel Vanderblit which was his headquarters during the Democratic National Convention.

PRAISES LEAGUE
In a formal statement, he praised he League of Nations, asserting:
"As to whether or not the United states should take membership in he League is a question which the people should decide by special exterendum as the Democratic platform proposes, such referentisan political questions and candidacies for public office. It is by this means only that we shall get a clear and definite expression of public opinion upon this momentous question."

Mr. McAdoo said his conviction "that the United States should join the Leagle and join whole-heartedly in the efforts to end wars and to secure general disarmament." had never been altered. "It has been strengthened by what I saw in Europe," he added.

(FI CARLS AND ASSOCIATED PRINT)
MANILA, Sept. 22.—Manila's
threatened alcoholic "dry spell"

was broken today with the arrival from Singapore of the Blue Funnel liner Thesus, carrying a consignment of whisky.

The shortage of intoxicants resulted from refusal of the American Consul at Hongkong to grant bills of heath to ships carrying liquor to the Philippines on the ground that the dependency was subject to the provisions of the American Volstead Act.

While officials are awaiting new rulings from Washington to clear up the muddled situation, it was learned unofficially today that the collector of customs at Manila might be lenient with vessels arriving without bills of health where having liquor aboard explained the absence of the usual papers.

The Insular Department of Justice today issued a statement denying that the Volstead Act applied to the Philippines.

One might cost a fortune but millions sell at 5¢ each

One of the keenest struggles in the world is to get things we want at a low price. It is the whip in competition. It is responsible for much industrial and commercial prog-

Yet within our lifetime prices in general have steadily risen.

There are exceptions to this rule.

With volume and through scientific manufacturing and distribution, a few products have created a force that serves like an iron roof, holding the price down.

Coca-Cola is one of them.

. . . When Coca-Cola was put on the market in 1886, the popular, convenient coin, 5c, was adequate to pay for ingredients of the highest quality.

Then prices steadily rose. But the 5c price made Coca-Cola a quick seller. And Coca-Cola would not be Coca-Cola with cheaper ingredients. There was begun an effort that has proved far-reaching - to maintain the highest possible quality in a beverage at the 5c price.

Coca-Cola was steadily gaining in volume. This volume made possible the most modern manufacturing methods-with the precision, perfect sanitation and labor-saving of machines.

The same efficiency was applied to distribution. Fourteen regional factories were built

to assure quick deliveries and cut freight cost to a minimum. Twenty-four strategic warehouses were established. Twenty-three hundred jobbers with floor stocks were added to the organization. Twelve hundred and fifty Coca-Cola bottling plants in as many cities were built.

And now! The dollar is worth only about half what it was in 1886, but the nickel still buys the highest quality in a beverage.

Except for tremendous volume and established distribution, it would be impossible for a beverage of this quality to be sold at such a price.

The matter of price maintenance, of course, is voluntary on the part of retailers. The courts have so held. But among the 415,000 Coca-Cola retailers the conviction is established, because the facts prove it right, that the 5c price gives a volume and turnover with greater profits than would a higher

Suppose the pure products from nature and nine sunny climes that are blended in Coca-Cola were gathered for a single glass, the beverage prepared and served to you icecold, "delicious and refreshing?" It would cost a fortune.

But backed by the great industry that it is, the millions of glasses and bottles of Coca-Cola are sold at 5c each,

CHICAGO, Sept. 22.—Approximately 4000 persons, chiefly curi osity seekers, with few buyers, today thronged the recently abandoned home of Jacob Franks, father of the boy murdered by Leopold and Loeb. The beautiful lawn was trampled to shreds.

The family, moving away from **ROCK WALL** the mournful surroundings, will live in a hotel, miles distant from their former home, and it had been announced that the furnishings would be sold at auction.

Jacob Franks was the only member of the family present. The mother of Bobbie is quite ill, and the surviving son and Josephine, the daughter, kept out of the crowd.

Delano Plans Welcome for John R. Quinn

(EXCLUSIVE DISPATCE) BAKERSFIELD, Sept. 22.—John R. Quinn of Delano, who last week days in the Mest, is dead.

"Dad," as he was familiarly known by half of the residents of Riverside, died late Friday night at the County Hospital, after an illness of nine months. "Dad's" given name was Ausburn, but few residents of Riverside knew it. Neither did they know that when he retired from the Army he bore the title of captain.

Although he died at the County Hospital, "Dad" was not an object of charity, for between the lat and 10th of every month turned over to the hospital authorities his pension check from the United States government. They will remain here this evening and tomorrow start for Fresno, where Cooper is to race October 2. Following that they will start a motor honeymoon across the continent to Charlotte, N. C., where he is slated for a race on the Dixle Speedway. The honeymooners will then motor back to Los Angeles, where they will make their home after November 1.

According to the bride she first saw Cooper at the Indianapolis Speedway on Decoration Day. A month or so later Cooper's car struck another automobile driven by Mrs. Bailey in Los Angeles and the romance was on.

When they obtained the marriage license here this afternoon Cooper gave his age as 38 and Mrs. Bailey admitted 23 years. Both gave their residence as Los Angeles. Mrs. Balley was divorced some time age from Bierce Bailey, a Troy (N. Y.) attorney.

The principal speaker will be A. B. Boyd, well-known engineer, who has been in charge of the work of widening and paving Washington Boulevard and who is largely responsible for the success of much of the street improvement work this year.

Members of virtually all civic organizations and the Board of Trustees will attend the luncheon as well as several citizens interested in the improvement program. It is proposed to bring before the meeting the question of the erection of a large monument at Leona and Speedway, to mark the western terminus of the Greater washington Boulevard.

SAN DIEGO, Septiembre 22.—
Por in han tocado tierra de Callfornia los aviadores militares que realizaron la hazaña sin precedente de dar la vuelta al mundo por el aire. Liegaron a San Diego a las 10:24 de la mañana de hoy, y está anunciado que tomarán de nuevo los aires mañana a las 12:39 p.m., en el asródromo de Rockwell, y harán rumbo hacia el acródromo de Clover, en Santa Monica, sitio donde iniciaron su vuelo mundial el 17 de Marzo último.

No fue tan grandiceo como se tenía proyectade el espectáculo de la recepción de bienvenida que les tríbutó San Diego, debido a que los aviadores salieron de Tucson antes de lo que se había anunciado. Los preparativos se habían hecho en la inteligencia de que los hombres del aire aerrizarian después de la una de la tarde; así que la llegada de los oficiales pilotos no fue presenciada sino por los funcionarios de la cituda, algunos miembros del ajercito y de la marina, y unos cuantos amigos de los aviadores. Por total, deben de haberse hallado presentes unas doscientas personas.

El avión del Teniente Smith se vió rodeado inmediatamente que tocó tierra de un nutrido ramillete de señoritas. Pue materialmente arrancado de su asiento por antiguos camaradas del aeródromo de Rockfield y llevado en hombros hacia la plataforma de revistas.

El Principe Esterhary, de Budapest, que no es otro, al decir de la policia, que un muchacho de 22 años, que lleva el plebeyo nombre de Stephen Gregor, fue trasladado ayer sin miramientos por los detectives a una celda de la Carcel de Ciudad, acusado de robo en casa habitada.

El noble visitante, de cuya nobleza dudan formalmente los detestives, fue arrestado en el Alexandría, donde tenis rentadas lujosas habitaciones. Practicaron la aprehensión los detectives Hull y Post, y un señor S. E. White, empleado de la Agencia de Detectives Internacional Burns.

Se acusa al Príncipe, o a Gregor, nombre con que está registrado en el carnet de la policía, de haberse olvidado de su noble estirpe, y haberse marchado con un gabán, ropa y una cámara pertenecientes a T. C. Herbert, que vive en la calle Figueroa Sur, 351. Aregan los detectives que la ropa y cámara robadas se hallaron en las habitaciones del sospechoso en el hotel Alexandría.

A principios de la semana próximo pasada llegó a ésta el Príncipe Esterhasy, o sea el buen Gregor, anunciando que venía a los Estados Unidos con el fin de interesar a los habitantes de descendencia húngara en el restauración de la monarquía en Hungría, con el Conde Szechenyi en el trono.

Los húngaros de esta cludad recibieron de manera cordialisima al joven visitante. La semana pasada fue huésped de honor y principal orador en una reunión de húngaros más significados de Los Angeles. Dijo a los policías que tenía compromiso de habiar el viernes sobre Hungría en el club Gamut, y que, después de ése tenía varios otros compromisos análogos.

"I still expect to remain a Democrat in my inclinations but I am impelled to this digression for a number of reasons, chief among which are: First, that the record of President Coolidge as well as the past performances of his party assure us a reduc which the forces of our party have given little heed; and second, that we as a people should take the most direct means to win a decisive victory over the forces that threaten our constitutional

ENCYCLOPAEDIA BRITANNICA in a New Form at a saving of 46%

THE publication to-day of the Encyclopædia Britannica in a New Form at a sweeping reduction in price marks a new epoch in the history of this great work.

To-day you can obtain one of these wonderful sets, the latest edition, in large type, complete and unabridged, for 46% less than the famous Cambridge issue. Here at last is the ideal Britannica at a price so low that every home can afford it.

This is perhaps the most important announcement that has been made in the 156 years that the Britannica has been published, and it records one of the greatest publishing achieve-

Summed up, it means that it is now possible for us to offer you the complete Britannica printed in large type from the original plates at a reduction of nearly one-half-by far the lowest price at which the newest and latest large type Britannica has ever been sold to the general public.

Revolutionary Changes in Publishing

THE steps by which the New Form has been made a suc-I cessful reality is a fascinating story. Leading printers and publishers said: "If you can do it, it will be a big success." Here was an entirely new idea involving revolutionary changes in the publication of the Britannica.

But we knew we were right. This idea was the logical outcome of years of experience; it crystallized the recommendations of thousands of users and owners of the Britannica. We gave the specifications to our experts and told them to go ahead. Their success has been beyond all expectations.

These were the specifications—and they have been carried

Why the Price is so Low

FIRST OF ALL, the experts made a striking innovation—they decided to bind this issue of the Britannica in 16 double volumes instead of 32 single volumes. That one change enabled us to save nearly 50% of the binding cost.

This innovation was made possible by the use of the far Britannica Opacity Paper, which is very thin but beautifully white and opaque. We placed an or-der for 1200 tons—sufficient for 10,000,000 books of ordinary size -at a time when prices in the paper market were at their lowest.

Then it was determined to print Then it was determined to print this issue from the plates of the famous Cambridge issue, which sells for nearly twice as much. By doing this it was possible to save thousands of dollars, because we did not have to reset 33,000 pages of type.

THE

MORELAND POOL

We have told you of our POOL No. 8—referring to a pool in shares of Moreland Motor Truck Company.

Now that the "cat's out of the bag" a wild scramble for these shares will ensue.

Moreland Common sold yesterday up to \$9.50—an advance of about 50% from recent quotations, and our campaign has just started. This stock has been selling recently around \$6.00 per chare and we believe these shares are a good buy at twice that figure—and that they will sell at twice that figure—an advance of 100% within a very few days.

There are real reasons why these shares should sell at \$12 per share and some of these reasons follow:

The Company is a 5. Management beyond proven success—the largest concern of its kind proven. Its record is west of Chicago.

4. The business is growing. It leads the field far
ahead of the nearest competitor.

8. Actual dividends over
a period of years — more
than 125 per annum on
the actual capital.

We advise the purchase of Moreland all the way up to \$12 per share. If you haven't already acted—let your order read "at the market" and get it to our office right now and get your shares at the lowest price possible.

COFFEE CLOSES HIGHER
Local coffee traders today paid little heed to Brazilian cables, though Bantos futures over the holidays had declined \$15 to 1775 reis. The market here opened at from 5 points advance to 10 points decline. Trading quickened during the afternoon and, under some persistent buying by trade houses, the market closed at a net advance of 25 for September and from 15 to 4 points advance for other options Closing prices: March, 15.51; May 15.31; July, 14.99; September 17.13; October, 16.78; November, 16.50, and December, 16.39.
The rice market was irregular. The spet market was irregular. The spet market was steady.
From lately published statistics it appears that imports of beans since the 1st inst. were 21,166 bags of beans and 9450 bags of peas. There has been more interest shown in foreign beans than some of the medium grades of domestic. Peas are firm and selling to retail trade in fair sized lots. Lima beans are strong.

BUTTER AND EGGS

BUTTER AND EGGS

BUTTER AND EGGS
The call for butter futures was slimly attended and not a sale was recorded. The last warehouse report on eggs covering the four leading cities shows that there are 635,000 cases less than the same time last year. This shortage has changed the situation on storage eggs to such an extent that prices have steadily advanced, especially on December options. At the opening buyers showed more interest in futures than in spot deliveries. Sales were eight cars storage firsts seller December 36 7-8 cents and one car. November, at 36 3-8 cents.

Two cars. April, refrigerated firsts were taken for spot delivery at 35 cents.

members of the California Peach and Fig Growers on Tuesday and Wednesday. The local crop of dried peaches and figs will reach about thirty tons, including the harvest from the Porterville. Terra Bella and Ducor sections, all of which will be handled through the local house, according to Charles C. Taylor, field representative for the association.

Taylor considers this an ideal district for peaches and figs. "Some of our best fruit is coming from this district," he declared. "There is no question about the ability of the district to grow fancy fruit."

Calimyrna and Kadota crops through the valley have been rather disappointing this year, owing to weather conditions, but the white Adriatic and black Mission figs have been as productive as ever, Taylor states.

grand jury, the State Corporation Department charged the firm with selling ell stock which it did not possess.

The specific allegation was that the firm had taken orders for Standard Oil stock and in Los Angeles \$10,000 for the same stock. When the purchasers called for delivery of the stock there was none forthcoming. It was the same story when the stock purchasers asked for the return of their money—there was no money."

Those who gave testimony to-night were S. B. Ginsberg and John K. Rice, said to be clients of the firm.

During the activities of the State Corporation Department, C. M. Munro, head of the San Francisco offices, heard of the raid and voluntarily surrendered himself and the books of the concern to the authorities. It was then that Munro admitted, it is asserted, that the firm was short anywhere from \$15,000 to \$30,000. (ST A. P. NIGHT WIRE)

The cheeses—thousands of them—must have been entirely devoured by deep sea fishes by this time, since they have been washed by ebbing and flowing tides for more than eight years, but the fish do not eat gold, and there was 12,000,000 gold marks (\$500,000) in bars and ingots secreted within those cheeses when the Tubantia went down.

SHIPS HAUNT SCENE

A French syndicate, reported to be backed by the French government, is attempting to get diversing to the wreck, while a mysterious craft, flying British flags, but said to be a disguised German vessel, is hovering constantly in the offing.

A Danish vessel is also on the scene. Desperate contention for possession of the treasure has already twice been threatened, and may develop yet when the precious metal begins coming to the surface.

The Tubantia's fate was tragic and fantastic at the same time. In 1916 when warring Germany was badly pressed for raw materials and with credit running low, it was decided to send 2,000,000 gold marks to Buenos Aires to bolster up the credit. The Dutch Lloyd liner Tubantia took on the treasure cargo at Rotterdam and for safety's sake, because the seas were infested with raiders, the gold was hidden away inside of thousands of Dutch cheeses forming the bulk of the Tubantia's cargo. The gold athipment naturally was kept a strict secret, known only to highest the selection to this problem. The sakes are placed in artistic bronze urns—in which there is a wide variety or choice as to design—as also price. These urns are then put in marble-lined niches, faced with a seveled plate glass and solid bronze trames. It is a permanent resting place; the ashes need never be disturbed. The Columbarium is in the Mausoleum, forms a part of it, and receives the perpetual care which the Mausoleum system of procedure supplies. The owner of a niche has all the advantages of the owner of a crypt in the Mausoleum—a magnificent marble corridor with beautiful, peaceful surproundings, in this enduring, state-your marble to the columbarium by word and picture when the precious and proved to the procedure and proved to the procedure supplies. LIMIT-HIGH STRUCTURE IS PLANNED

As the site for a proposed height-limit building, the south-seast corner of Santa Monica Bouleward and Fairfax avenue was purchased yesterday by Benjamin Gumbiner for a reported consideration of \$75,000. The sale was negotiated through the office of Tom Hughes by Danjiel E. Warner, an associate of the local realty office.

The lot, forty feet wide and 125 feet deep, was formerly owned with a two-story building. Estimated cost of the projected building is \$500,000.

"Are you sure you have told us everything?"
Gibson deciared he had. The motive, he said he believed, was robbery.

Virginia Hunn was called next. She said after supper her mother had put har to bed, leaving the two men in the kitchen. Later she heard Gibson go into the bathroom and then heard her mother scream. Then she saw Gibson run out the front door, and a few seconds later saw Garbutt run into a front room, grab his cap and follow Gibson out.

THE OLD GIRLS

A New York woman celebrated her
102d birthday by going to a dance. Is this
another illustration of the ruling passion?
Our grandmothers are bobbing their beans
at 90 and jazzing a bit in crossing the century mark. But who shall say them nay?

No TIME TO READ

The New York public library circulated something like 500,000 fewer books than it did last year. Naturally they are blaming it on jazz and the radio. Instead of picking up a book somebody tunes in on the bedtime story or opens an outburst of teasure.

THE BIG HAND

According to the glovemakers the hands of our women are getting larger. Big hands are all right in a poker game, but otherwise are in no especial demand. If our lady fingers are swelling it is not from washing dishes. Possibly the golf-game has a little to do with it.

HIAS RUNNING WILD

Gov. Richardson ought to get out an injunction to restrain Mt. Shasts from caving in. With Shasts collapsing and Lassen spouting smoke and lava our much-lauded mountains seem to be going to the bad. This is more impressive than the third-party movement. If we cannot control our peaks and tether our hills what is the world coming to?

CONDENSED RELIGION ONDENSED RELIGION

Some of the country churches that say they cannot afford a preacher are putting in radio sets. In some districts they can have their pick of several sermons. The phonograph folks might fix up a few records in this connection that would combine in a full service all except taking up the collection. That would have to be done in advance to pay for the equipment.

THE FIXING MAIL.

It is now possible for the aviators of the flying mail to pick up sacks while in liberty of our forefathers than this measures at a looped rope to which the bags are attached makes the feat possible and saves the aviator the hazards of a landing. Now that they are able to refuel planes in insideously undermining the structure of midair we may yet have a continuous non-stop aerial postal service. The mail may be dropped or caught with equal facility.

Arise! Arise! The British forces at Lexington were hardly more dangerous to the light. The simple device of a hook which ture is to us. Loyal citizens must awake to the act was framed for the express purpose of regulating traffic by keeping uniformed officers in plain sight on the highways. No chemist would mark a man off as being merely a cheap blend of iron, sulphur and water. He would at least skirmish for the gold fillings in his teeth.

WORLD DISARMAMENT

Word comes from Geneva that the more than fifty peoples now represented in the League of Nations will sponsor a world conference upon disarmament to be held next June. The call will be issued by the Big Twelve and all the governments of the civilized world will be institute to the gathering. There will be no insistence upon League control or domination. The organization merely furnishes the machinery for the conference. The United States will naturally be represented, whether the isolationists wish it or not. There can never be world disarmament or universal peace without the conference and electronic and the conference who has decided that Senator La Foliette should be President of the United States who was small enough of intellect and mean out America participating.

THE MONEY CHANGERS

The disappearance of Russin's spiritual life fast reaches a sensational point. Where magnificent religious edifices welcomed their thousands of worshipers museums will welcome, at a price, curious visitors. St. Isac's was turned over for exhibition purposes and now the famous cathedral of Kazan, one of the greatest buildings of its kind in the world, is to set up the turnstile and become an art museum. The Russia of to day forgets the noble chapters of her past.

One may travel far to find such cases of Court were proud to act as judges of the

La Follette campaign is based on a direct catack on the Constitution. If, by any chance, the La Follette party wins, the Constitution falls. A Constitution whose provisions can be ignored by a Congress ceases to be aught but a scrap of paper. The issue is clear, decisive. There is no room for intelligent misunderstanding.

The platform written by La Foliette him-self provides that Congress can re-enact any law declared unconstitutional by the becomes the supreme law of the land. Of course, the La Follette people assert that this prerogative would be used only for an exceptional measure, for some humanitarian law that conflicts with present provisions of the Constitution. But their claim is mere pettyfogging. Past experience has proved that it would be much more likely used when the country was swept by a passing wave of passion to deprive some passing wave or passion to deprive some minority of the rights guaranteed it under the present Constitution.

The Constitution can be amended to write into it or take out anything that three

fourths of the States desire. If an emer-gency arose demanding immediate amend-ment, something that has never occurred in the history of the nation, that amendment, provided there was a strong and unanimous demand from the people for it, could be made in less than ninety days.

The Constitution is the will of the whole people, expressed through Congress, conjointly with the State legislatures. La Follette would give to Congress the right to ignore or amend the Constitution without securing the ratification of the States. And he calls that progressive It is progressive.

securing the ratification of the States. And he calls that progressive! It is progress toward absolute dictatorship. It would permit a coalition in Congress to ignore the rights of the sovereign States. It would mean a greater centralization of power in Washington than was possessed by the government of the former German Kaiser. It is time for plain speaking. La Foliette proposes to make it possible by a combination of forces, bloos, etc., in Congress to pass laws against a minority, be they religious, political, educational or anything else, and make it impossible for the Supreme Court of the United States to protect the injured, no matter how terrible or irreparable the wrong done.

Let all who now enjoy full security of life and liberty, the right to worship as one

and liberty, the right to worship as one likes, the right to the pursuit of happiness, the right to the pursuit of happiness, the right to enjoy the ownership of property, imagine these things, the very foundations of our lives swept from under us by an act of Congress passed in a tornado of passion or excitement such as often sweeps over a legislative body.

Out of His Reach

Pause and listen! The full force of this will come to you when you realize that no power on this earth can stay that mandate. The power of the majority, inflamed by prejudice and passion, is forced on the minority. The Supreme Court of the United States, which now will protect even one lowly citizen against the combined attack of 100,000,000 if his rights as guaranteed under the Constitution are invaded will, un-

The new California Motor Vehicle Act did not specifically prohibit the speed trap, but virtually had that effect by declaring that evidence obtained through the operation of a speed trap is illegal. Most law-enforcement agencies recognized the validity of the State law and acted accordingly; but minority.

If the danger of this La Pollette measure some communities persisted in encouraging was fully realized there would be 1000 Paul Reveres riding down every road and lane of this country crying "The enemy is here! Arise! Arise!" The British forces at Lexicolumn to the law and acted accordingly; out the some communities persisted in encouraging the some communities persisted in encouraging the same unconstitutional, but the "Appellate Court decision is emphatic in upholding the law.

The enactment of the law by the Califor nia Legislature followed a vigorous campaign against speed traps by the Automobile Club of Southern California. Three years ago Mr. Standish Mitchell, secretary, speaking for the club, was quoted as con-

progress, and many offered prayers for their safety and their welfare.

THE WORLD'S WINDOW

Undoing the Work of Zealots washed wall of the Cathedral of Gouda, Hol land, during the long service he bared there was a huge painting of St. Christo pher carrying the infant Jesus. The paint ping in size eyen the famous Christopher in Paris. It has now been definitely estab-lished that the painting in Gouda is the work of the famous brothers Ten Eyek, who also colored the marvelous windows in that also colored the marvelous windows in that church. The authorities, however, have not stopped with the one painting, they have ordered all the whitewash removed and treasures of art are being laid bare each day. In one place they discovered a door, a sort of secret panel, with a staircase leading into an old crypt. In the crypt were found skeletons. From the half-decayed clothing it is thought that the skeletons were those of monks locked in the passage by the irate iconoclasts in the times of the reformation. But in the crypt were found gold and silver altar vessels and a communion set donated to the church by Philip the Beautiful of Burgundy. Other churches in The Netherlands are having their walls examined. There is little doubt that other treasures will be found. In their idol-smashing zeal the iconoclasts had little dol-smashing seal the iconoclasts had little regard for art. Things are reversed now. The descendants of the first Protestants want to undo the work of their fathers.

speaking for the club, was quoted as condemning speed-trap methods as un-American and unsportsmanlike. In support of the club's contention that the speed trap did not promote safety on the highways Mr. Mitchell gave virtually the same reasons now given by the Appellate Court.

The chief purpose of all traffic regulations is to promote safety on the highways, the collection of fines is secondary or incidental.

Large Pores Come **Beauty Goes**

Get Rid of Them This New Way

Skin beauty is all in the size of the pores. Large pores mean shinness, sallowness, black-heads, fiabby skin. Restore the pores to their early childhood fineness. Beauty is yours.

Try this simple treatment to-night. Before you go to bed spread a thin layer of Vivaudou's new astringent cream over your face and throat. Gently pat it in. It vanishes quickly. All night long this wonder cream gently closes the porea.

Repeat in the morning before applying face powder. It is a wonderful powder base. It prevents clogged pores. It keeps dust, dirt and face powder out and the natural oils of the skin in. Face powder does not blotch or cake—stays on.

A few treatments will amaze you. Full size jar \$1.00 at all drug and department stores.

While isolation and methods of sanitation should be carried out with strictness (because smallpox is one of the most contagious of communicable diseases) the only of the diseases is George H. Watson of Salt Lake City.

From Visit East

Mrs. Walter C. Burke, who has been enjoying a several months' trip East, where she visited in New York, Chicago, Boston and San Francisco, has returned home and with Mr. Burke is making the Ambassador their headquarters for the winter. Communicable diseases) the only real prevention of the disease is vaccination. Even under the most hygienic curroundings there seems to be no natural immunity against smallpox. It is such a contagious is season that no matter what the state of the individual's health, if he is exposed to smallpox he is liable to contract the disease—unless he has had smallpox or cowpox. It he has had smallpox or cowpox. It he has had smallpox or cowpox. It he has had smallpox in his bedy during the time that he had the disease. This defence is usually a permanent one. Smallpox is a terribly loath-some and often fatal disease. Cowpox or vascina, which is a modified form of smallpox, is a very mild disease and one can have it with perhaps no constitutional effects.

J. Rosenau, professor of preventive medicine and hysiene at Harvard, this is the way the bovine virue is obtained:
Young calves are held in quarantine for seven days to make sure they have no diseases of any kind. Before vaccination, the calf is very carefully cleaned and the abdominal wall is shaved and made surgically clean. Long, superficial scratches about one-quarter of an inch apart, are made and the seed virus is gently rubbed into these. The calves are now rigidly isolated in a special room, free from dust, and screened. The animal now develops the eruption of this mild disease, cowpox or vaccinia.
On the fifth day the animal is placed upon a special table and after it is chiercformed to avoid pain, the site of the vaccination is given a very thorough scrubbing with scap and water and a long flushing with sterile water, and the virus is obtained from the vaccination.

Three Men Jump One Story and Flee Over Bridge; All Recaptured by Deputies

While the court and three deputy sheriffs were busily engaged in a heavy calendar, three prisoners escaped yesterday from Judge Collier's court and enjoyed a brief freedom. The three who were awaiting arraignment in court, jumped one story from the jury room of the court, where twenty prisoners were being held for their appearance and made their way across a small bridge to the chambers of Judge handcuffs on his wrists before he had an opportunity to escape.

Those who escaped were Leonard Stooner and Theodore Lynch accused of robbery, and Rober Shannon, said to have previously served a term in prison, accused o grand larceny of an automobile.

Miss Fegelson, who was a teacher in 'a local high school, was sentenced to the penitentiary for a term of one to fourteen years by Judge Avery. It was read into the court records that she was a sister of the notorious "Blackmail Annie" of Chicago.

Probation Officer Minnie Barton and Mrs. Walter C. Blue, who are leading the fight to have the girl given another chance that she may rear her child, yesterday received a telegram from Mrs. Edward Helperin, 44 North Lexington avenue, St. Paul, a sister of Miss Fegelson, denying that "Blackmail Annie" was a member of the family.

"Blackmail Annie" was a member of the family.

The telegram, which is to be followed by an affidavit, stated:

"Beatrice Gail Fegelson is my sister. I have lived in St. Paul all my life and am married to a merchant in this city. My only other sister is Ruth Eegelson, who is employed with the St. Paul Milling Company. She has lived in St. Paul all her life. Never heard of 'Blackmail Annie.' No such person in our family. UNIQUE BUS READY FOR LOCAL LINE

Only Six-Wheel, Two-Deck Coach in World Received for Figueroa System

A new phase of motor-bus trans portation was started yesterday when the Los Angeles Railway received the first six-wheel double-decker in the world. The sixwheel construction, which is claimed to give greater strength and riding comfort, has been used in single-deck busses, but this is the first time that it has been ap-plied to a double-decker. The bus was given a test run yesterday with officials of the street railway com-pany and the Moreland company, manufacturers of the bus, as pas-

sengers.

Sixty passengers can be accommodated, thirty-five on the upper deck and twenty-five on the lower.

A combined air-hydraulic brake system applies on all six wheels.

Preumatic tires are used through-out, and this combination is claimed to make skidding practical-ly impossible.

out. and this combination is claimed to make skidding practically impossible.

Detachable waterproof covers are used on the seats of the upper deck. These can be removed immediately after a shower, providina dry seats. The lower deck is equipped with a ventilating system and twelve twenty-one candle-power lights so that a newspaper can be read conveniently at night. The seats are upholstered with spring cushions.

The new bus is the first of five six-wheelers ordered, and will be put on the Figueroa-street line which started yesterday, routed over a downtown loop of Hope. Sevent. Olive and Eighth street, and via Hope. Washington and Figueroa to Fifty-eighth street. In addition to being the first city to have six-wheel double-deck tuses. Los Angoles had the first double-deckers using pneumatic tires on all six wheels and giving a considerable improvement in riding quality over the double-deckers used in some eastern cities.

PRACTICAL RECIPES

for pickled figs.

This recipe was published in The Times Practical Recipes Tuesday, August 30.

O. P. H., Oceanside, and A. E. M., Los Angeles, requests a recipe for candled figs.

Wash and dry firm, ripe figs, drop in boiling water for three minutes and drain well. For each pound of figs boil one cupful of water and two cupfuls of sugar until clear. Add the figs and boil for fifteen minutes; remove from the fire and let stand overnight. Return to the fire, boil twelve minutes, remove and let stand overnight. Return to the fire, boil twelve minutes, remove and let stand overnight. The figs are clear and have filled with syrup. When the fruit is bright and clear, drain and dry in the sun or a cool oven. For crystallized figs when the figs are dry cover with a syrup made with six cupfuls and a quarter of sugar and four cupfuls of water and let stand the minutes. Sift one trought of sitted four with two levies tablespoonful of salt and one tablespoonful of salt and one tablespoonful of sugar; add to balance of the milk mixture and one tablespoonful of melted butter. Add the stiffly beaten whites an one tablespoonful of red currant jelly, wheat well and add two-thirds of a copful of red currant jelly, wheat well and add two-thirds of a cupful of tomato catsup. Lay in this sauce aix silces of cooked lamb seasoned with paprika and salt. Cook slowly for twenty minutes. Lift out the lamb onto a sauce.

Serve with orange sauce.

WILL BEAUTIFY PARK

The City Council's Finance Committee yesterday afternoon approved of the park department's plans for the beautification with trees and flowers of the concrete approaches and walks to be built to the Collseum at Exposition Park from Thirty-ninth street, Santa Barbara avenue and Figueroa street, which are to be paid for by the supervisors at an expense of \$85,000. The approach from Figueroa street will be 200 feet in width, and in the center of this esplanade will be shrubs and other landscaping with walks on each side.

landscaping with walks on each side.

The park department was instructed under the committee to proceed with the work of securing trees, flowers and shrubs. The work will be completed by next June, Park Department Superintendent Shearer said, and will cost about \$40,000.

Acres, Weeks Colony, Owensmouth and Girard.

The lines are expected to be complete within ninety days. The installation is being accomplished at a cost of \$188,000 by the Southern California Gas Company. Those who are being served in this territory, with the ce-operation of Victor Girard, raised the sum of \$60,000, which was placed at the disposal of the gas company to assist in defraying the initial cost, to be refunded over a period of years.

arrested at Oceanside on the morning of the 13th inst., were sentenced to seven months in the Orange County Jail by Federal Judge James. They are Guiseppe Morinoni, Capitsta Brigenti and Angelo Moccell.

In passing sentence Judge James made it clear that he was dealing lightly with the men, but that any further attempts to enter the United States illegally would result in long penitentiary sentences. The three were indicted in company with six other Italians and A. Zolezzi, asserted to be the ringleader in the smuggling, for viciating the immigration law.

According to Immigration Supervisor Carr, the Italians, unable to enter the country, due to the exhaustion of the quota, were shipped by water from Ensenada, Mex., to San Diego.

"This arrest bears out the prediction of several months ago that the addition to the land forces of the immigration department would drive the smugglers to the water, said Supervisor Carr. We are now tightening up the porta. The price of \$500 a head for smusgled aliens is due to take a big jump."

Reform School Term Stayed for Thirteen Weeks

Confession of Kidnap Threat Reported by Police

Claire Seaton, 16-year-old stu-dent at Burbank High School, was sentenced to serve the remainder of his minority in Preston State School at Ione by Judge Archbald of Juvenile Court yesterday. The youth was charged with attempting to extort \$4500 from Mrs. S.

T. Allen of the suburban city.

After making the order committing Seaton to Ione, Judge Archbald ordered a stay of execution for thirteen weeks, admonishing Seaton that he would, be released in the custody of probation officers with the reform-school sentence to be put in effect should he again deviate from the path prescribed by society.

According to probation efficers who worked on the case, Seaton wrote two notes to Mrs. Allen demanding that she place \$4500 in a vacant lot or else the writer would kidnap her daughter and take the latter to Tia Juans.

Seaton was arrested on suspicion after police had placed a package of papers in the lot designated in the blackmall notes. He was said to have confessed writing the youth was charged with attempt-

notes.

The youth told Judge Archbald yesterday that he had no intention of carrying out his threat; that he had written the notes in an effort to get sufficient money to enable him to finish his high-school course and enter college. He said he got the idea of writing the notes from a story he had

The New Things to Know about Linoleum Floors

Third: that it shall be waxed

and kept new-looking and good-looking. For over fifty years, business men have used linoleum because it is quiet, economical, and easy to clean.

Today they expect more of lino-leum. They look to Armstrong's Linoleum for beauty and dignity of color and design. They arrange to have their fine linoleum floors laid the way merchants and contractors who feature Armstrong's Linoleum recommend. And when these floors are laid, they wax their floors regularly because waxing not only improves the looks of linoleum and protects it for years of wear, but because waxing is also the low-cost, easy way to keep a linoleum floor

The new way of laying linoleum is to cement it in place over a lining of builders' deadening felt which has been pasted to the underfloor. The linoleum is pasted to the felt, joined closely, so that there is no break in the design, and waterproof cement is used round all edges and seams.

The finished floor is permanent, smooth, and tight, and will not stretch or crack. Also, if for any reason the linoleum should be taken up, the underfloor is entirely unmarred and as good as over marred and as good as ever. The low cost and fine results of waxing linoleum floors

DISAPPEAR FROM HOME

Police Hunt Starts for Sons of Oregon Professor on Eve of Latter's Trial

Bates, head of the English department of the University of Oregon, at Eugene, and Mrs. Rosalind Bates, have mysteriously disappeared from the home of their mother and were being hunted last night by the police.

Prof. Bates and his wife are divorced and the children have been living at the home of their mother, 717 Imogene avenue. Mrs. Bates said the boys left school yesterday noon and have not been heard from since. Both left bieycles at the schoolchouse, and Roland, who carries a paper routs, failed to report for work yesterday afternoon.

On the complaint of Mrs. Bates her husband appeared before Police Judge Pope on the 39th inst. charged with failure to provide for the two minor children. He pleaded not guilty and was released on \$1000 ball for trial today. At that time he declared that the charge was only designed to annoy him, as the children had been awarded to him by the divorce ocurt and he had allowed them to go to their mother for a visit as a matter of courtesy. On the other hand, Mrs. Bates said she had supported the children had been awarded to him by the divorce ocurt and he had allowed them to go to their mother for a visit as a matter of courtesy. On the other hand, Mrs. Bates said she had supported the children lance for six years, with only an occasional visit from the father.

Roland is described as having dark hair and eyes and when last seen was wearing knickerbookers.

'Antioch Plan" Described by Its Author Here

How Ohio College Fits Its Students for Work

Classroom Work Alternates With Practical Jobs

What Dr. Charles W. Ellot described as "the most interesting and perhaps the most interesting and perhaps the most important experiment now going on in the whole range of American education" was set forth last night by its author, Dr. Arthur E. Morgan president of Antioch College, Isa to number of prominent citizens and educators at the California Club.

Dr. Morgan's plan, now in actual practice at Antioch, is intended to overcome the disadvantages under which the average college man enters the business work and actual "jobe" during the student's undergraduate period and by providing the kind of work which will best overcome any latent deficiencies in the student.

The college has an enrollment of 600 studenta, but only 300 of them are in attendance at one time. Half of the time, from one day to five weeks, alternating, is spent at the institution and the remainder of the time at a job picked for the student in one of the surrounding industrial cities.

"We aim to develop young men and women for management and proprietorship—for economic self-support and independence," Dr. Morgan eaid. "But we are not interested in students whose sole motive is to prepare for to make a better living. Economic independence, Dr. Morgan eaid. Most of the students at the institution, the speaker said, are self-supporting and the course requires six years. Dr. Morgan pointed out that better results can be obtained through a six-year course of personal, intimate contact than by the ordinary three or four-year courses offered by other institutions. He stated that the college is a small one and intended to be such in order to secure the desired personal contact. Students are placed on a budget at entrance time and the budgets are carefully gone over by the accounting department of the college. To illustrate his point concerning part-time education, Dr. Morgan said:

"Those of you who are fathere know that you can teach your chilling has been concerned as the government between the budget proposals or consent to the suppression of the full-time students who do not take jobs, whereby they can finish in four years.

time students who do not take jobs, whereby they can finish in four years.

It is believed, however, by Dr. Morgan and members of the faculity, that the student can accomplish much more through the six year course, which, it is pointed out, is a combination of cultural study and co-operative work, and that the student will be substantially farther along in his life progress than he would be two years after graduation under the conventional four-year system.

Each job is ordinarily held by two students, the speaker stated, constituting a "co-operating pair," who contract to hold the job for a year, including the summer vacation. One student works while the other studies in ithe college. A feature of the system is the conference about the ins and outs of the job as the partners periodically exchange places. The jobs are found by the personnel department of the college and it was stated that there is no difficulty in finding them.
